MEMORANDUM FOR: Rear Admiral John Butts, U.S. Navy
Director of Naval Intelligence

SUBJECT: Participation in the DCI's Exceptional Intelligence
Analyst Program

Dear John: *John -*

1. As you know, the DCI's Exceptional Intelligence Analyst Program was established to provide Community analysts with opportunities for long-term research programs tailored to their individual needs. The program is based on the belief that the intelligence contribution to policy formulation is directly related to the quality of our analysts.

2. I was discouraged to hear that the Navy did not submit a candidate this year, although it was not for lack of trying. I understand that two applications were reviewed by your office and that a number of potential candidates were counseled but apparently chose not to apply.

3. I trust we will see candidates from Navy in next year's competition.

Rear Admiral, USN
